*Fiscal Technician*  
[djenni@cfma.state.sc.us](mailto:djenni@cfma.state.sc.us)

Mr. Tony A. Perdomo, *Intern*

## ***ABOUT THE COMMISSION***

---

*The South Carolina Commission for Minority Affairs was created in 1993 by the General Assembly to provide the citizenry of the State with a single point of contact for information regarding the State's minority population.*

*Additionally, the Commission was created to:*

- *study the causes and effects of the socioeconomic deprivation facing minorities and work to implement initiatives to alleviate such deprivation;*
- *establish a database of statistical information for distribution to members of the General Assembly and other entities capable of effecting change;*
- *be the State's clearinghouse for minority statistical information and to publish a Statewide statistical abstract on minority affairs;*
- *provide communities with a single point of contact to obtain raw data and information necessary for local research and planning;*
- *liaison with community leaders, businesses, and elected officials to build the infrastructure needed to foster economic prosperity among the minority population;*
- *serve as the catalyst for identifying and linking funding and programs from both the public and private sectors;*
- *solicit funding for and coordinate programs necessary to address inequities confronting minorities in the State; and*
- *provide assistance and information on Voting Rights Act submissions, as well as other related issues.*

## FOREWORD

*South Carolina ranks fifth in the nation behind the District of Columbia and the States of Hawaii, Mississippi, and Louisiana in minority population. South Carolina's population ranks fourth in the nation in terms of the number of African Americans, following the District of Columbia, and the States of Mississippi and Louisiana.*

*Minorities constitute 31.0 percent of South Carolina's population, with African Americans representing 96.1 percent of all minorities in the State.*

*With such a large minority population, it is imperative that information regarding the socioeconomic status of minorities and their contribution to the overall socioeconomic prosperity of the State be well researched and documented.*

*This report provides statistical information on South Carolina's 46 counties. Information is presented by race and sex. The fact sheets address the status of poverty, income, single parent families, educational attainment, child birth rates, drug use, the criminal justice system, and unemployment.*

*The State fact sheet has the same indicators as the county fact sheets. Comparisons can be made between each county fact sheet and the State figures.*

*The profile enlightens South Carolina's citizenry concerning the factors that impede minority economic growth and development. By highlighting these alarming statistics, hopefully, it will inspire initiatives that can alleviate conditions causing minority deprivation and poverty.*

# ***UNDERSTANDING THE ABSTRACT***

Explanations of statistical categories found in the abstract are provided below. For additional information, please call the Commission for Minority Affairs at (803) 737-7570.

## **Population**

The percentage of population by race.

## **Family Poverty**

A classification based on income of families using a poverty index which provides a range of income thresholds varying by size of family, i.e., for a family of three, the poverty level is \$12,980 and for a family of four, the poverty level is \$15,600.

## **Child Poverty**

The percentage of children 18 and under whose families' income fall below the poverty thresholds.

## **Income Per Capita**

The mean (average) income per person. The figure is calculated by adding the total personal income of every man, woman, and child in a particular group and dividing by the number of persons in that group, including those with no income. Persons without income (children, for example) tend to lower the per capita income.

## **Single Parent Families**

Households with children under 17 that are headed by a male or a female single parent.

## **Births to Teen Mothers**

Women under the age of 20 who had live births.

## **Births to Single Mothers**

All unmarried females who had live births regardless of age.

## **Births to Mothers Not Completing High School**

The percentage of babies born to mothers of all ages who had not completed the 12th grade.

## **Students "Not Ready" for 1st Grade**

Students who lack the readiness skills needed to pass the Cognitive Skills Assessment Battery (CSAB).

## **Students Repeating One of Grades 1-3**

Students held back because they failed to demonstrate satisfactory knowledge of readiness to move forward.

# ***UNDERSTANDING THE ABSTRACT***

## **Students Dropping Out of School**

Students enrolled in grades 9-12 who leave school for any reason other than death, prior to graduation or completion of a course of studies, and without transferring to another school or institution.

## **10th Grade Students Not Passing All Parts of Exit Exam**

Students who fail one or more parts of the required Exit Exam.

## **Infant Mortality**

The number of infants who died prior to their first birthday.

## **Low Birthweight**

The percentage of babies born weighing less than 2500 grams or 5½ pounds at birth.

## **Less Than Adequate Prenatal Care in 1st Trimester**

No prenatal care during the first three months of pregnancy.

## **Drug Use Among Students**

The percentage of students in grades 7-12 who have used illegal drugs by race and by gender.

## **Juvenile Court Referrals**

The percentage of all juveniles in the County, ages 15 through 17, who were referred to juvenile court, i.e., to determine the percentage of white females, divide the number of white females referred by the total number of white females, ages 15 through 17, in the County.

## **Adult Incarceration**

The percentage of the adult prison population, 18 and older, by race and by gender, i.e., to determine what percentage of the prison population African American males represent, divide the number of African American males incarcerated from each County by the County's total prison population.

## **Unemployment**

The percentage of the labor force by race and by gender, ages 16 and older, who are unemployed but still looking for employment, i.e., to determine the percentage unemployed, divide each group's unemployment number by the total labor force number of the same group.
